- Basic Repository implementation

```java
1  package com.restcrudbasics.client.repositories;
2
3  import org.springframework.data.jpa.repository.JpaRepository;
4
5  import com.restcrudbasics.client.entities.Client;
6
7  public interface ClientRepository extends JpaRepository<Client, Long> { /* Put the entity name and the primary key or Id type, in this case, Long */
8
9  }
10
```
